EDUCATION

Bachelor of Technology (Indian Institute of Information Technology, Sricity)

August,2020 - April,2024

- Computer Science Engineering (CGPA : 9.64)
- Courses: Data Structures and Algorithms, Computer Architecture,Database Management, Algorithm Analysis,Object Oriented Programming, Operating Systems, Artificial Intelligence,Machine Learning,Computer Networks,Full Stack Development.

SKILLS

Technical Skills HTML5, CSS3, Bootstrap5, JavaScript(ES6,ES7), jQuery,
NodeJS, MongoDB, ReactJS, ExpressJS, RESTAPI,
Java, C++, Python, MYSQL, Data Structures and Algorithms

PROJECTS

Farmers Web Portal([Link](#)) *ReactJS v18, NodeJS v16, MongoDB and ExpressJS.*

- Designed and built a Responsive web page to help and educate Farmers regarding the various types of crops
- This serves as a platform, where the farmers can buy quality and certified agricultural products.
- Collaborated with a team of 5 members and managed the whole project and completed in on time before the deadline.
- Over 500 of friends and relatives have used it so far and loved it!

Military Management App([Link](#)) *Java, MYSQL.*

- Developed a command line application that helps to organise the details of 1000's Soldiers in a normalised form with very less data redundancy.
- Coordinated with a team of 4 members and took the responsibility of guiding the team.
- Strengthened the workflow using the 4 pillars of Object Oriented Programming concepts thoroughly in an effective way.
- Stored data with less than 10% redundancy which in turn reduced the data fetch time by 50%.

Expense Tracker([Link](#)) *ReactJS v18, Bootstrap5,JavaScript(ES6).*

- A ReactJS project to help people organise their expenses over 1day, 1week, 1month or even 1 year and help them cut down unnecessary expenses and save money.
- Over 150 of friends have used it and suggested improvements.

Blog Maintainer([Link](#)) *ReactJS, Bootstrap5, CSS3, JSON-SERVER.*

- Created a project that helps people write and read blogs on all kind of topics to share knowledge and improve their skills.
- Devised a user-friendly UI.
- Built using only 6 components in an organised manner.

EXTRA-CURRICULAR ACTIVITIES

- Full filled the role of an Anchor in the Institute Events having an audience of around 900.
- IIITS volleyball player (Left Wing Spiker).
